

## Quotes about Recycle Runway

### GARMENT SPONSORS

“Being a part of Recycle Runway is a great way to recognize the efforts of our associates who have worked hard to get us to a 90% recycling rate. Sponsoring a garment allows us to support the arts and environmental education. The sponsorship also allows us to demonstrate that our environmental efforts extend beyond our vehicles, and touch all aspects of our business.”

Ryan McMullan,  
Environmental Coordination Office,  
Toyota Motor Sales

“Nancy contacted the local Target store to make the Target recycling dress, and the store team really got into it by coming up with lots of materials we were recycling and even some that we weren’t. That made the team think more about what they were throwing away. It was a great project and the impact of the dress is excellent.”

Jim Bosch, Target

"I came over to look at the exhibit because my wife likes shoes. At a distance I just thought it was about shoes, but then when I got closer I could see that it was about recycling, creativity and what can be made with trash. It makes you think twice about all the stuff you have and what you can do with it besides throw them away. I remembered the name Recycle Runway because it was cute!"
